

Good Health is a state of physical, psychological, social and spiritual well being. It is not just only absence of disease. We are gifted with this lovely machine - our body and mind, and our commitment should be to stay healthy all through our life, through youth and old age.

At ADITYA BIRLA MEMORIAL HOSPITAL, our aim is to make you aware of your present health status and then guide you into a healthy lifestyle in the future.

Early Detection and Timely Prevention

The modern lifestyle today symbolizes excessive stress and strain, extended working hours, irregular eating habits, late night weekend parties and inadequate rest. Coupled with high levels of pollution these factors are bound to cause health related problems and physical, mental and psychological disorders.

To cope up with the rising risk of medical disorders, health monitoring has become mandatory. Most health problems can be managed more effectively, if detected early and certain preventive lifestyle changes practiced based on the results of your health check up.

Consultations are given by a team of highly qualified and experienced Medical Professionals. Investigations are carried out in advanced equipments. All services are provided under the same roof. A doctor's prescription is not required for a health check up.

Instructions to Undergo Health Check Up

- Kindly take prior appointment, if possible.
- Please ensure you have been fasting for 12 hours prior to check, to confirm please call.
- Do not take any medications, alcohol, cigarettes, tobacco or any other liquid (except water) in the morning.
- Bring a stool sample in a container, if required (Containers are available on request).
- Please bring all your medical prescriptions and previous medical records with you.
- Please wear two-piece comfortable clothes, if possible.
- Kindly inform the Health Check reception in case you have a history of diabetes or cardiac problems.

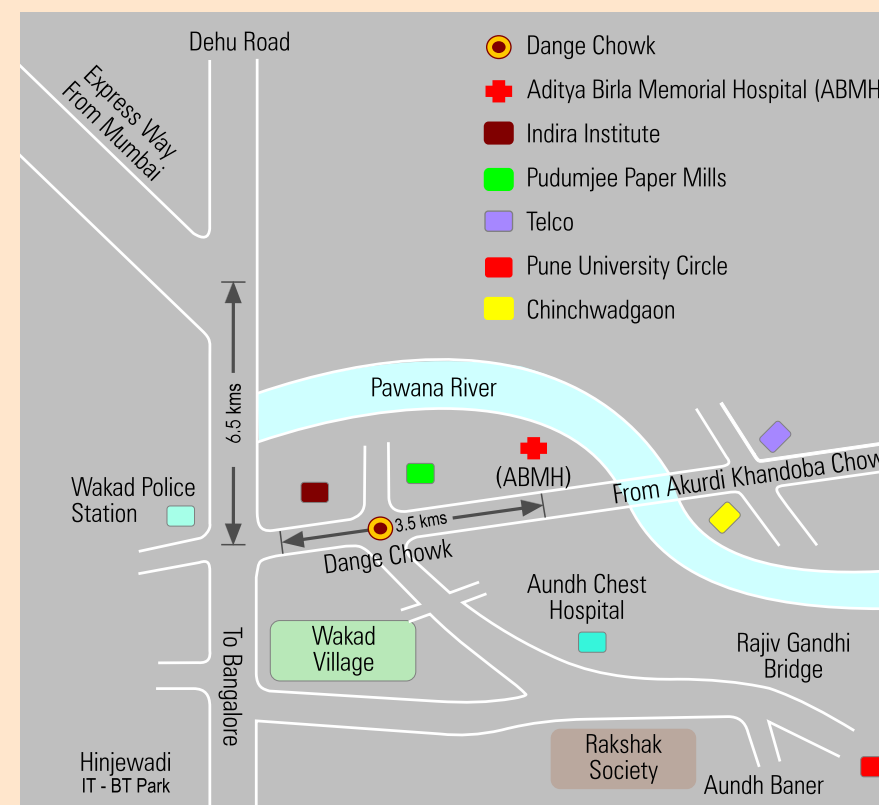

For Women

- Pregnant women or those suspecting pregnancy should inform us and are advised not to undergo X-ray test. It is advisable not to undergo any health check during menstruation.
